

The *Garderie Éducative Harmonie D'Enfance* located in Côte-des-Neiges is guaranteed to have the best learning conditions for your child. Your choice to register your child at our daycare is to place them at the heart of socialization, development, and growth, in a positive environment surrounded by quality educators and people invested in their early childhood education.

We are inspired by an active and flexible program to meet the needs and interests of the child. Children learn to play together through sensory and creative activities. We want your child to spend the first years of his/her life in an environment where they are comfortable, safe and most of all happy. We make every effort to adapt to the needs of your child and your family! Educated and cared for by our attentive, qualified, and dynamic staff, your little ones will have days filled with fun, joy, and laughter.

From an early age, we take care of your child, while offering them a safe, warm, and familial atmosphere, conducive to their development in which they can evolve at their own pace. We have a permit of 80 places issued by the Ministry of Family and we can accommodate 9 children from 6 to 18 months and 71 children from 18 months to 5 years.

Concerned about their health, we employ a professional and qualified cook to operate our full kitchen and we guarantee a healthy and balanced diet which follows the Canadian Food Guide.

To develop the values of each child, our daycare considers, in all their interventions, the different dimensions of the children's development and recognizes its presence in all activities throughout the day. Our daycare believes that each child is a multidimensional being that develops globally when they interact with their environment. When the children make use of their whole being to initiate interactions, explore and experiment with the physical and human environment, they are also able to trust and value themselves.

## **A Stimulating & Safe Environment**

Since 2012, our daycare has been at the service of children in the Côte des Neiges community and surrounding areas of Notre Dame du Grâce, Town of Mount Royal and even as far as Brossard.

Harmonie daycare gives importance to the environment and ecology and is focused on transmitting these habits to the children through nutrition, activities, recycling and much more...

We also offer different activities and organize small outings, while ensuring their safety: picnics, apple picking, sugar shacks, children's museum etc.

In addition to all the many wonderful services we offer, we have been recognized for 5 consecutive years in a row by [threebestrated.ca](http://threebestrated.ca) as the number one childcare provider in Montreal. Something that we worked hard to achieve and continue to maintain by implementing high standards and procedures in our daily operations.

## Our Main Objectives

To help children discover and explore the world around them and to develop harmoniously and autonomously at their own pace we offer them an environment rich in discoveries through our educational program. Our main objectives through this educational project are:

- Welcoming all children without distinction to live a happy and healthy community life in the daycare.
- Provide a safe environment with thoughtful design to reassure children and parents of their safety when they are in our care.
- Develop a quality and trusting relationship with parents and supportive of their parenting styles.
- Involve parents through direct and active communication, with an open invitation to participate in their child's development at any time.
- Foster child development and well-being through play, discovery and contact with other children.
- Promote psychomotor and cognitive development.
- Develop the child's growth and accompany him in the acquisition of skills related to language, gross and fine motor, cognitive and social/emotional with well-thought-out and planned activities.
- Respect the rhythm of each child.
- Support children towards their independence.
- Develop child socialization through community activities and involvement.
- Encourage each child's creativity by offering quality materials for them to explore and manipulate.
- Educate children about the environment and ecology through play, outings, reading, nutrition etc...
- Introduce children to English and French from an early age.
- Offer additional training for our staff and interns.

You can contact us at **(514) 739-9393** or email us at [garderieharmonie@videotron.ca](mailto:garderieharmonie@videotron.ca) for any additional information or if you would like to schedule a visit with us at the daycare.

***We hope to hear from you soon!***
